Is crowdfunding having a negative effect on the games industry? If so is there a way for this be avoided?

Alastair Rayner

October 31, 2016

Proposal

- The topic I intend to research is on the issues of crowdfunding and how this method of funding effects game projects. This paper will try and compare how successful crowdfunding is compared to traditional publishers, and how it effects the developers and the quality of the game.

- Public Online Failure With Crowdfunding

- Public Online Failure With Crowdfunding
  - The majority of projects on kickstarter fail. This paper focuses on public embarrasment in the process of running a kickstarted project.

Paper Two

- Public Online Failure With Crowdfunding
  - The majority of projects on kickstarter fail. This paper focuses on public embarrasment in the process of running a kickstarted project.
  - This issue is important to ethics because having a project be a public embarrasment impacts the developers of that game.
